They can contact an FBI agent and start the investigation, if they want. This is really outside of the scope of what DotGov does.

(b) (6)

Thank you. I do remember the technical POC - Mr. Korkis - he was emailing me a lot asking for different domain names for this exact request and they were all denied with the exception of bi-il.gov. The authorization letter for bi-il.gov was signed by the city's Mayor, Domingo F. Vargas, so I am not sure how the clerk can make a claim that this was not obtained properly or without proper approval. City council is not deemed to be the only authority for this type of authorization. In fact, as you know, city Mayors are usually the ones signing domain name requests for cities, and there's no limit of one .gov domain per city as they may have different purposes.

The fact that the Mayor is under the investigation of FBI is not really within the scope of GSA's monitoring and reasons for whether or not the domain should exist. I will call the clerk and try to understand what's going on, but I would imagine that if they are questioning why the domain was created in the first place, they need to work it out internally and without GSA unless GSA's DotGov policies were violated - and they were not as far as GSA is concerned. We cannot shut down this domain simply because the Clerk is questioning it unless someone from a US government law enforcement agencies (FBI, DHS etc.) or the city of Blue Island highest level of authority, asks us to delete it.

Let me know if you agree or have any recommendations.

Thanks,

Marina

On Wed, Jan 2, 2019 at 3:09 PM (b) (6) @verisign.com> wrote:

Lee, Marina,

I wanted to give you a heads up regarding a strange request we received for BI-IL.GOV. We received the attached letter from a non-POC for this domain. We also received a phone call from this same person. He claims that the Mayor is under investigation by the FBI. We tried to reach out to the admin and billing POCs for the domain without success. The non- POC also noted that there is some dispute going on with the technical contact assigned to the domain. The technical POC appears to be a third party. Based on the conversation, it sounds like the technical contact was supposed to deliver a website for the town, but has not.

I have also attached the original authorization letter. The contacts and domain information have not changed since the domain went live. The admin POC is the Mayor of the town and the billing POC is also a town employee. On the town's website, <http://www.blueisland.org>, the admin POC is still listed as the Mayor.

We have informed the non-POC that either the admin POC or the billing POC can request to have the technical POC removed from the domain and that they also have the ability to either change the name servers or request for the domain to be deleted.

I wanted to give you a heads up in case you wanted to take any action on this.

Thanks

Hello Marina,

This was provided by the registrant on 4/28/2017. I am attaching the email communication. The emails back to 2015/16(which they included in the pdf with the auth letter) were the emails when they initially requested the domain and the naming exception. When they were ready to register again in 2017, we requested for the updated auth letter with the current template as the old one did not include the new pricing, etc.

I did initially provide the last auth letter dated back when the domain was created and authorized.

Hope this helps.

Thanks,
Kat

Subject: RE: BI-IL.gov

Hello (b) (6)

Thank you for contacting the .GOV Help Desk.

We have received your authorization letter, and acknowledge that the abbreviated domain name BI-IL.gov has already been approved. However it does appear that the Authorization Letter that you are providing is old and we will need an updated letter to proceed. As of January 1st 2017 the price for .gov domain names has increased to \$400 and this will need to be reflected in the Authorization Letter.

It appears that a Create Request was never submitted for the domain and we need to attach the Authorization Letter along with the request to the GSA for approval. I have attached a blank Authorization Letter to this email to assist you. Please make sure that all Points of Contacts information is up to date and correct and we will be able to make the changes for you.

If you have any questions or need additional assistance please let us know.

Best Regards,

Owen

Dear Domain Manager:

I, (b) (6) the mayor for the City of Blue Island - State of Illinois, I formally request the authority over the BI-IL.gov second-level domain name be delegated to the City of Blue Island - State of Illinois. I attest that I am the highest-ranking elected official for the City of Blue Island - State of Illinois or have signing rights on behalf of the City of Blue Island - State of Illinois.

This domain name will be used for Government services. The use of this domain is consistent with the City of Blue Island - State of Illinois Internet policy. In addition, I will ensure the content of the requested domain name conforms to the .Gov policy.

By requesting this domain name, I acknowledge that I will be responsible for payment of the annual \$400 .Gov domain fee. I understand that if I wish to retire my domain, I must submit a written request to Registrar@dotaov.gov. If a written request is not submitted, I understand that I will continue to be responsible for all accrued domain fees.

The following individuals will be listed as POCs for BI-IL.gov. It is understood that the POC information must remain valid and up to date.

Administrative Point of Contact (APOC)

Subject: RE: BI-IL.gov

Hello (b) (6)

Thank you for contacting the .GOV Help Desk.

We have received your authorization letter, and acknowledge that the abbreviated domain name BI-IL.gov has already been approved. However it does appear that the Authorization Letter that you are providing is old and we will need an updated letter to proceed. As of January 1st 2017 the price for .gov domain names has increased to \$400 and this will need to be reflected in the Authorization Letter.

It appears that a Create Request was never submitted for the domain and we need to attach the Authorization Letter along with the request to the GSA for approval. I have attached a blank Authorization Letter to this email to assist you. Please make sure that all Points of Contacts information is up to date and correct and we will be able to make the changes for you.

If you have any questions or need additional assistance please let us know.

Best Regards,

(b) (6)

Subject: GOV-70288 Naming Inquiry

Hello (b) (6)

The GSA has approved your request for bi-il.gov. We have created login accounts for each POC on your domain. Please have each login with their temporary passwords which should be emailed to them shortly. Once that is done, one of the POCs will need to login to make the online registration request at www.dotgov.gov. This will start the registration process. Thank you.

Please let us know if you have any additional questions and or concerns.

Kind Regards,

(b) (6)
